THESIS SUPERVISORY PANEL: Urban 1 - Mahmud M Jusam,

FINAL THESIS ASSESSMENT DATE:

A possibly an exiting concept, but it is not clear the potential architectural contents - More on infill project focussing on revitalization of Sultan Street

Circulation system is not yet sorted out. Massing is ok.

- No clear ~~de~~ progress shown in the drawings presented.

- Composition of the 'architecture' is poor. Circulation system is weak.

- Circulation system seems workable, but need to take into consideration the real situation on site, spaces need to be properly sorted out.
