THESIS SUPERVISORY PANEL:

EnviroTectonic

CRIT # 01

DATE: 18.02.2014.

Comments: Interpretation of knowimery is weak. Need to revamp the whole plan: what are the types of interpretation. respond to site. 3d form!

Comments: Need to work out on the architectural quality. Lack of exploration.

THESIS SUPERVISORY PANEL:

ENVIRO - TECTONIC

CRIT # 1

DATE: 18/2/2014.

Comments:	Shall propose a new planning with proper zoning according to functions & environmental requirements. Need to explore more on the concept of biomimicry. At the moment the interpretation is still very literal.
Comments:	Not much improvement from previous semester. Need to review the entire space & architectural making to be national level music centre for the youth. Shall study building materials that suitable for the acoustical requirement yet bring out the national identity. Detail up the transformable stage design.
