Kong Yee Wan Ali Chan	Distinction				Must consider Fort Magarata to be part of the design. Consideration must include the height and the setting of Fort Mag towards your design. Rethink again on the suitability of auditorium at underground. Study more on
	Good				
	Average				
	Weak				
	Poor				
Kye Jun	Distinction				Sustainable architecture Need already think about the detail of the design. Major consideration should be on the circulation. Must make sure circulation is efficient. Think about sound dome.
	Good				
	Average				
	Weak				
	Poor				
Haigal	Distinction				Interesting idea for using Nipa as a form giver. The design should show some complexity. Try to use the waste materials as a building materials. Please think about the circulation especially the waste way circulation. Study more on river Achu.
	Good				
	Average				
	Weak				
	Poor				
Tan Yee Ling	Distinction				seem lost in the thesis design. Forget already what you want to do during 1st sem. Need more design strategies and design ideas on why such scheme being proposed. Weak in design reasoning.
	Good				
	Average				
	Weak				
	Poor				
Hidajat	Distinction				Change the whole concept of R&R. More towards farming and pottery. Good approach.
	Good				
	Average				
	Minimum Pass				
	Basic Fail				
Wan Hwan	Distinction				Advice to stick to all design and finished it. Do NOT try to redesign the whole scheme.

Yusuf (Master)	Distinction				Self cooling mosque. The water cooling technique is just an option. Need to experiment on all options for cooling the building. Two much literature studies. Need to have a design strategy.
	Good				
	Average				
	Weak				
	Poor				
	Very Poor				
Hafizah (Master)	Distinction				Low Carbon Parking Centre. Topic is too narrow for a design thesis. Need to explore other possible functions beside parking only. Need to start design!
